Hello, my name is Samarth H. Chinivar, a frontend developer based in Bengaluru, India. With a strong foundation in computer science, I have honed my problem-solving and troubleshooting skills while gaining expertise in web technologies such as HTML5, CSS3, JavaScript, ReactJS, NodeJS, and NextJS. My passion lies in developing new user-facing features and building reusable code and libraries for future use. I ensure the technical feasibility of UI/UX designs and optimize applications for maximum speed and scalability. I have a proven ability to work creatively and analytically in a problem-solving environment and collaborate effectively with cross-functional teams. I am actively seeking an opportunity to contribute my skills to an organization's growth and make a positive impact.

WORK EXPERIENCE

Full Stack Web Intern Varcons Technologies Pvt Ltd

03/2023 - 04/2023

As a Full Stack Web Intern at Varcons Technologies Pvt. Ltd., I gained hands-on experience in HTML, CSS, JavaScript, React.js, and Node.js. The internship involved designing and developing a [template website for sharing stock photos](#) using Next.js, React.js, Tailwind CSS, and Supabase, which allowed me to build skills in full stack web development, including designing user interfaces, implementing complex features, and integrating databases.

Python Intern Redtron Education Service LLP

06/2022 - 08/2022

During the Python Data Science and Machine Learning Internship at Redtron Education Service LLP, a strong foundation in Python programming was gained and applied to various projects. One such project involved scraping websites such as IMDb to extract relevant data for analysis. Additionally, a model for enhanced searching and a content generator for generating new content were developed. More information about the projects built in Redtron can be found at this [website](#).

PERSONAL PROJECTS

Personal Portfolio

- Developed a personal portfolio website using React.js, HTML5, and CSS3 to showcase skills, projects, and social media links.
- Demonstrates proficiency in front-end development, UI/UX design, and responsive web design., which is deployed at <http://samarth-portfolio-website.000webhostapp.com>.

Dubai Real Estate Web App

- Developed a fully functional real estate web application using Next.js, React.js, and Chakra-UI for listing Dubai properties for rent and sale.
- Integrated APIs, implemented search and filter functionality, and deployed the website on <https://samarth-estates.vercel.app>, demonstrating skills in full-stack web development.

Todo List

- Created a React.js-based to-do list web application, using HTML5 and Bootstrap5, to allow users to store their to-do list directly in their browser.
- Demonstrated proficiency in front-end web development and user interface design, and deployed the application on <https://samarthhchinivar.github.io/todo-react> for public use.
